

**Part I – The Schedule**

**Section E**

**Inspection and Acceptance**

**E.1 Clauses Incorporated by Reference – Section E**

Clauses at the beginning of this Section are incorporated by reference, with the same force and effect as if they were given in full text. Clauses incorporated by reference which require a fill-in by the Government include the text of the affected paragraph(s) only. This does not limit the clause to the affected paragraph(s). The Contractor is responsible for understanding and complying with the entire clause. The full text of the clause is available at the address contained in Section I clause FAR 52.252-2 Clauses Incorporated by Reference, of this Contract.

**E.2 DOE-E-2001 Inspection and Acceptance (Oct 2014)**

Inspection and acceptance of all items under this Contract shall be accomplished by the Contracting Officer in accordance with the clauses listed in this Section. If the Contracting Officer assigns this responsibility to the Contracting Officer’s Representative or another representative of the Government, the Contracting Officer shall notify the Contractor in writing.

**E.3 U.S. Department of Energy Office of Environmental Management Quality Assurance Plan (QAP)**

The Contractor shall implement a Department of Energy (DOE) approved Quality Assurance Plan (QAP). The Contractor’s QAP shall document the method for determining which quality requirements are flowed down to subcontractors and suppliers and the process used for implementation of that method.

The Contractor’s QAP shall document the basis for the graded approach (as defined in DOE Order 414.ID) and process used for implementation of that approach.

Contractors have three options for complying with the QAP contract requirement:

- (1) Develop and submit, for DOE approval, a new QAP;
- (2) Adopt the prior Contractor's DOE-approved QAP (if available); or
- (3) Modify the prior Contractor's DOE-approved QAP (if available) and submit it for DOE approval.

Development of a new QAP, or adoption of an existing or modified version of a QAP from a prior contractor, does not alter a Contractor's legal obligation to comply with 10 CFR 830, other regulations affecting QA and DOE Order 414.ID.

The Contractor shall, at a minimum, annually review and update as appropriate, their QAP. The review and any changes shall be submitted to DOE for approval. Changes shall be approved before implementation by the Contractor.

Consistent with the approved QAP, the Contractor shall develop/adopt and implement a comprehensive Issues Management System (as defined in DOE Order 226.1B) for the identification, assignment of significance category, and processing of issues identified within the Contractor's organization.
