

**Solicitation Number: 89303322REM000112**

**Title: Small Business Set-Aside for Nationwide Deactivation, Decommissioning and Removal (DD&R)**

**Date: November 22, 2022**

**THIS IS NOT A REQUEST FOR QUOTE OR PROPOSAL. THIS IS A PRE-SOLICITATION ANNOUNCEMENT ONLY**

In advance of the release of the Final Request for Proposals (RFP) for the Small Business Nationwide Deactivation, Decommissioning and Removal Procurement (anticipated no sooner than February 2023), DOE is issuing this notification to encourage Offerors to consider the establishment of contractor teaming arrangements with the goal of the establishment of optimal proposal teams who have demonstrated relevant Past Performance for the full scope of Performance Work Statement requirements. The following draft language is anticipated to be included in Section M of the Final RFP, in pertinent part:

“DOE will evaluate the Offeror and all members of a teaming arrangement, as defined in FAR 9.601(1) and any Teaming Subcontractors, in accordance with the work each entity is proposed to perform under the work scope described in the Master IDIQ PWS. Each reference contract will be evaluated for relevancy in terms of scope, size, and complexity. The resulting rating will consider whether the Offeror’s team as a whole (including Teaming Subcontractors) have demonstrated relevancy to all PWS requirements.”

At this time, DOE anticipates the award of multiple contracts against the subject Indefinite Delivery, Indefinite Quantity RFP, which may be limited to a reasonable quantity of only the highest rated proposals.

Please note that the terms and conditions of the Final RFP will ultimately dictate the terms by which proposals are evaluated and selections are made. All questions may be directed to the procurement email address at [sbnationwideddr@emcbc.doe.gov](mailto:sbnationwideddr@emcbc.doe.gov).
